

Protecting Your Child Online Parent Presentation

Wednesday, Sept. 20, 2023

6:30 PM

Parish Hall

Parents, Grandparents, and Staff are all welcome!

Special Agents Patrick Cullen and Joe Hooper are both ACS parents and FBI agents in the Phoenix office. They will provide valuable information to help you keep your children safe from child predators on the Internet, including social media and other platforms children are using today.

This is the first in a series of parent presentations on this topic. Since technology and its related dangers are continually changing and evolving, one presentation a year is not adequate to keep parents up to date. If you are interested in presentations on other parenting topics, please contact Dr. Pristash with your ideas.
